

Percent Change, 1990 to 2000 and Population Density, 1990

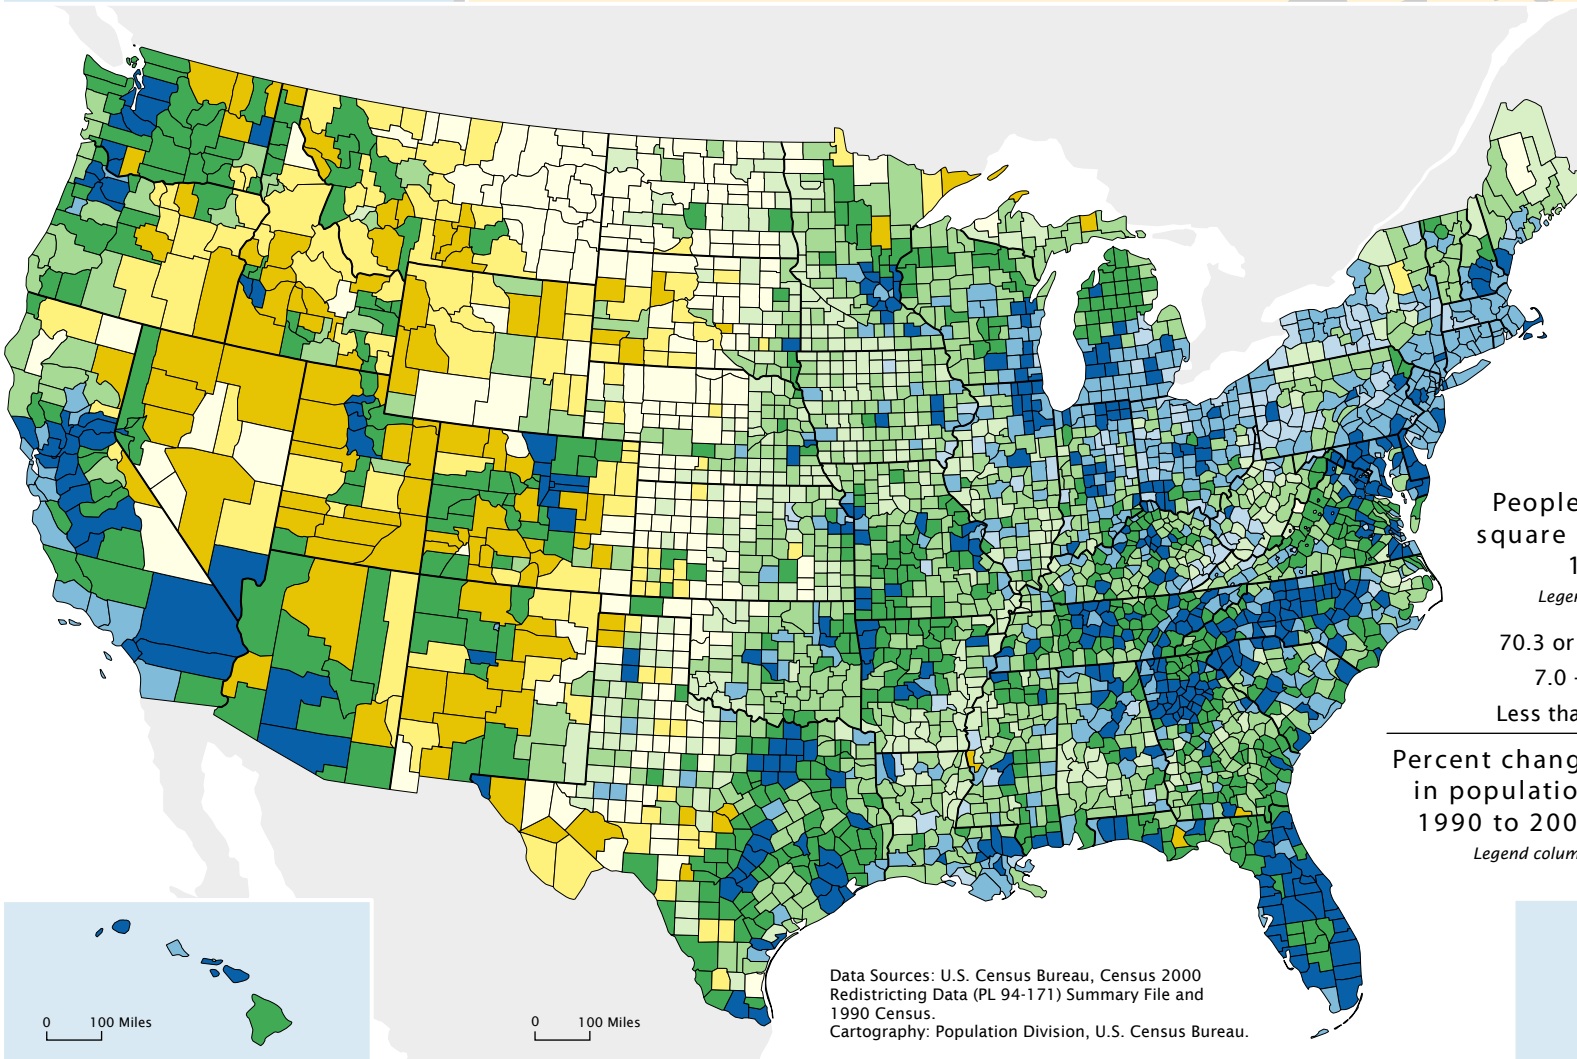

Large population increase
Equal to or more than U.S. increase of 13.2 percent and:

- Dark Blue: Equal to or more than 1990 U.S. density of 70.3
- Green: Less than U.S. density

Loss or small increase
Less than U.S. increase of 13.2 percent and:

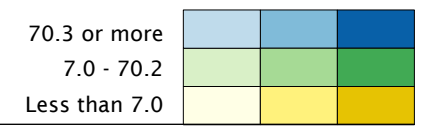

- Light Blue: Equal to or more than 1990 U.S. density of 70.3
- Light Green: Less than U.S. density

County colors:
Color hue represents 1990 population density: yellow counties had the lowest densities, less than 7 people per square mile (bottom row in the legend); green counties were less than 70.3, the U.S. density in 1990; blue counties had the highest densities. Color lightness represents population change from 1990 to 2000: light counties lost population (left column in the legend); dark counties grew the most, with gains equal to or more than the U.S. change of 13.2 percent.
